What were the strong points of the session?

- Good session. Very informative.
- Provided lots of valuable info of what works and how to apply info to other areas. Allowed for conversations. Well done.
- Good session.
- Good ideas on lesson's learned and suggestions for the rest of us.
- Great pork examples. Important. There's more to understanding PLT/BLM partnership that might be helpful. Head up info for FEPIS. Especially "Greenworks" grants for service learning.

What were the weak points of the session and how would you change them for the better?

- Too much time spent on ski ecology program. Half the time to highlight would have been finer.
